

Lili's Montessori School Cambridge Primary Years 4, 5 & 6

Lili's Montessori School uses a unique Montessori approach to learning that help the child to develop the love of learning , respect for others as well as humanity and develop self confidence.

Montessori approach of introducing division/
repeated subtraction

Montessori approach to multiplication which help the child to internalize the process before moving to abstract way of doing multiplication

Education that becomes a tool for life

How are our students prepared for the future?

Cambridge learners build more than just a deep understanding of their subject. Being a student of Cambridge Pathway means developing the higher order thinking skills to apply what they've learned. Solving problems creatively. Thinking for themselves. Doing their own research and communicating it .Working with other people on a project they've designed together. So Lili's Montessori School make sure our programmes encourage students to develop the attributes of the Cambridge Learner – **confident, responsible, reflective, innovative and engaged**. And help them to succeed in tomorrow's world

 CAMBRIDGE PRIMARY YEARS 4, 5 & 6

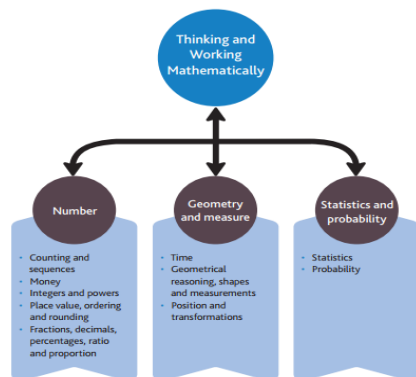

Phone: +265 995 433 663

Our Core Subjects

MATHEMATICS

Cambridge Primary Mathematics encourages lifelong enthusiasm for analytical and rational thinking. Learners develop a holistic understanding of the subject, focusing on principles, patterns, systems, functions and relationships. They will become mathematically competent and fluent in computation, which they can apply to everyday situations.

Lili's Montessori school has a unique approach to learning mathematics and that approach is used to make the students understand better Cambridge mathematics

LANGUAGE

Cambridge Primary English is for learners who have English as a first language. It can be used in any cultural context.

This curriculum encourages lifelong enthusiasm for reading, writing and spoken communication. It equips students with transferable language skills for interrogating and producing spoken or written texts and working collaboratively. It also develops their confidence, creativity and intellectual engagement.

Science

Our primary Science curriculum helps learners develop a lifelong curiosity about the natural world and helps them to seek scientific explanations to the phenomena around them.

Students develop a holistic approach to Science by considering scientific thinking and practical skills alongside knowledge and understanding, which is vital for explaining approach provides them with the knowledge and skills they need to excel at Science in later stages of education. It also helps them to make informed choices, including considering sustainability issues and meeting the challenges facing our environment he world around us. This considering sustainability issues and meeting the challenges facing our environment.

OTHER SUBJECTS INCLUDE

- ⇒ Physical Education
- ⇒ Computing
- ⇒ Digital Literacy
- ⇒ Global Perspective

Our Unique Approach To Learning

Our unique child centered approach developed by Dr. Maria Montessori ensures your child's success at all stages until they write their Checkpoint examination at Year 6. Direct day to day teacher/learner engagement means parents or guardians will be able to track their child's progress week by week.

Lili's Montessori school has high qualified teachers who are specialized in the subject areas and fields.

Our spacious and well appointed classrooms have been especially designed to meet the needs of learning in the 21st century and evolving subjects.

Our S.T.E.M laboratory and our state of art Research Room will ensure your child gets the knowledge and skills for today and tomorrow's dynamic innovations

At Lili's Montessori School, we aim to produce curious worlds citizens that will have solutions for local and worlds issues
